

AG Commercial Use

inSORS Integrated Communications, Inc.

“What if teamwork and travel were free and instantaneous ... ?”

On the desktop

In the office

In the conference room / command center

- **Acceleration & inclusion:**

- Scheduling & inclusion of key participants
- Bringing together key specialists & executives
- Instantaneous connections between centers of expertise & “customers”
- Synchronized data management & group work on virtually any project
- Meetings replaced by actionable working sessions
- Immediate dissemination of actions & results

- **Cost savings:**

- Decrease travel time & travel expenses
- Reduce MCU expenditures
- Reduce hosted telephony
- Reduce user licenses, data handling, and support requirements

inSORS solutions accelerate and bring efficiency to customer's work processes.

Research processes – inclusion, research, collaboration, & funding achieved

Conference broadcast – inclusion, instantaneous distribution, playback

New product rollout – speed to market, avoidance of duplication, globalization
